

Attention Teachers

Funding now available to help start or support a FIRST® team.

Through a generous donation from NewsCorp in partnership with DonorsChoose.org, funding is available to help start or support a FIRST® team.

As part of the continued efforts by FIRST to provide better access to quality STEM experiences for K-12 students, these organizations have joined forces to nurture technology and engineering education in public schools through the use of hands-on robotics programs.

Thank you for your generosity and for supporting my endeavors to foster creativity and critical thinking skills in my students.

– Mrs. Davis, Battiest, OK. Recipient of funding

Educators are encouraged to use [DonorsChoose.org/first](https://www.donorschoose.org/first).

- Funding is available to any educator in a public or public charter school, employed full time by the school or school district and works directly with students at least 75 percent of the time.
- Funding can be used for registration fees, materials, reasonable and customary FIRST team travel costs.
- Priority will be given to projects that support underserved and unrepresented students.

Get started today!
